Arvig® has nearly 300 POP locations throughout Minnesota!

400Gbps COMING SOON.

WE CONNECT BUSINESSES THROUGHOUT MINNESOTA AND BEYOND

HIGH-PERFORMANCE CAPACITY AND STABLE NETWORK INFRASTRUCTURE

Whether you're looking to grow your market, expand your customer base or broaden your product offerings to new locations, Arvig's fiber network (15,500+ and growing) is the connection you need to get there. With dense fiber routes throughout Minnesota, including the state's strategic markets and busy metro hubs, we deliver fast uninterrupted connections in more locations.

Flexible Service

Lit Services, Wave, Dark Fiber, Ethernet—you select the bandwidth and delivery.

In-House Construction

We do it all: drafting, permitting, engineering, fiber construction, locating and maintenance.

Quality Connection

Every Arvig fiber connection is engineered for minimum latency, packet loss and jitter.

Custom Networks

Connect multiple locations and users for seamless data transfer and access.

Data Centers

We are located in 27 data centers across five states and growing.

Wireless Backhaul

Arvig provides service to over 1,000+ cell towers, including: Lit, Wave, Dark Fiber, Small Cell and Macro Tower.

CONNECT WITH YOUR LOCAL TEAM.
