

# JACKSONVILLE

Located at 421 West Church Street in downtown Jacksonville, Florida, SBA Edge JAX hosts a wide variety of independent colocation data centers, network Points of Presence (POP), and subsea fiber providers. The facility is designed to provide Northeast Florida with a redundant Network Access Point (NAP) in between Miami, Florida and Atlanta, Georgia and is a well of cross-country fiber providers and subsea cable systems. As part of an expanding global network of submarine cables, these subsea fiber optic pathways connect JAX internet and data services to the rest of the global digital community, creating a peering environment that is second to none.

## Network Peering

Connection Point to South America

Trans-Atlantic Fiber Optic Network

JXIX (Jacksonville Internet Exchange)

Over 20+ In-House Fiber Solutions

# YOUR DATA STARTS HERE.®

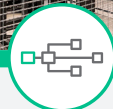

## POWER

2N power design with diesel and UPS backup power sources

Six diverse power feeds ranging from 13.2kv to 480v

Five backup generators with 3MW power

Dual A & B UPS 225 KVA

## ACCESS

Interconnection meet-me rooms

Host for JXIX (Jacksonville Internet Exchange) the only peering exchange located in Northeast Florida

## SECURITY

Reinforced concrete, aluminum concrete frame

24/7/365 state-of-the-art security with CCTV and on-site security

Gated and biometric access points for critical and highly sensitive data; mantraps and interlocking doors

Full-featured NOC/SOC monitoring and control

## CAPACITY

280,000-square foot building

Hosting over 3,000 servers, 20+ onsite fiber providers

## COOLING

Liebert glycol chillers with pressurized cold aisle containment

Certified engineers dedicated to maintaining our chillers and other systems within the facility

# FLEXIBLE AND SCALABLE DATA CENTER SOLUTIONS, INNOVATIVE TECHNOLOGY

**Private Data Centers:** The JAX facility is designed to house any form of data center, from small scale to the enterprise level. We make it easy by providing 2N redundant power, cooling, and 20+ local, long-haul, and subsea fiber carriers all in one building.

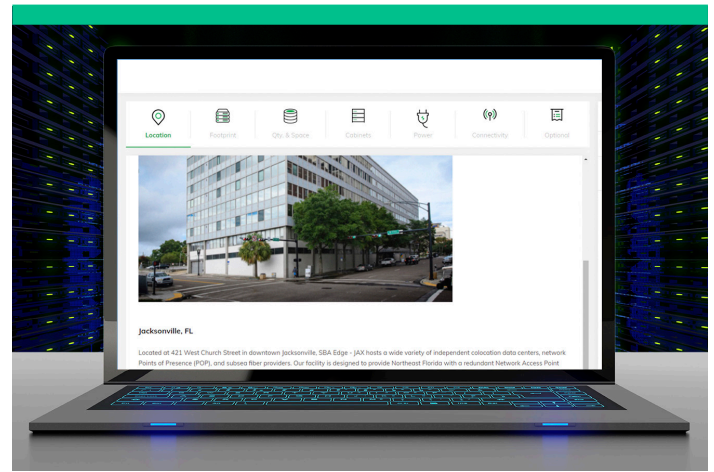

**Stability:** SBA Edge is a subsidiary of SBA Communications, a leading independent owner and operator of wireless communications infrastructure, including towers, rooftops, distributed antenna systems and data centers. With more than 30 years of experience and expertise, SBA is a publicly traded company on NASDAQ (Symbol SBAC) and a member of the S&P 500.

**Multiple Connectivity Options:** Multiple interconnection solutions are made available by our meet-me rooms for local and global data exchange. We offer data speeds up to 100 Gbp/s or as low as 100 Mbp/s to fit your network needs and budget.

**Redundant Infrastructure:** Built upon a system that incorporates multiple utility feeds and redundant N2 transformers, JAX ensures that reliability and service uptime comes standard at North Florida's only triple-redundant spot network.

**North Florida's Largest Carrier Hotel:** Access to the highest density fiber optic cables in the region, including direct access to South American fiber routes, provides diverse options for your connectivity needs.

**Internet Xchange:** As the only peering exchange located in the Northeast Florida area, JAX serves as the sponsoring host of the Jacksonville Internet Exchange (JXIX). The JXIX facilitates simple peering between Google, Akamai, and a variety of other high-traffic networks.

## ONLINE QUOTE IN MINUTES

Use our online colocation cost estimator, available on our website. Select your location, server/cabinets, power and connectivity – and generate a quote in minutes.

## SBA EDGE MAINTAINS COMPLIANCE CERTIFICATIONS THAT ARE CRITICAL TO OUR DATA CENTER CUSTOMERS.

PCI, SSAE 18, Open-IX and HIPAA Certified
