

# SECURE YOUR FIBER AND COMMUNICATIONS INFRASTRUCTURE WITH SBA EDGE

Ensure the seamless operation of your fiber network and communication systems with robust, reliable, turnkey infrastructure solutions from SBA Edge. From galvanized steel and durable aluminum cabinets for rapid deployment to sturdy concrete shelters for decades of protection, we offer a diverse range of solutions to meet your unique needs. We offer reliable, turnkey deployments at locations throughout our markets.

- Industry certified solutions
- Flexibility to accommodate a diverse range of specifications
- Dedicated and multi-tenant environments available in both lightweight and concrete construction
- AC and DC power plant options
- Generator, battery or alternative energy solutions
- Turnkey solution to include permitting, project management, scheduling, procurement, electrical installation, commissioning and ongoing monitoring and maintenance
- Thousands of secure tower sites ready for rapid deployment
- Hundreds of shelters and cabinets are in place for quick deployment
- Full-featured NOC with 24/7/365 monitoring
- Site performance metrics (environmental, ATS, fuel, door, UPS) can be transmitted to your NOC

# YOUR DATA STARTS HERE.®

## GALVANIZED STEEL OR DURABLE ALUMINUM OUTDOOR CABINETS

Ideal for rapid deployment

Configured with cable management, power and grounding equipment and accessories

Durable construction provides weatherproof protection

Customizable with ventilation, security features, sizes and mounting options

Accessible from front or rear with a variety of sizes available

## CONCRETE FIBER OR COMMUNICATION SHELTERS

Built for lasting durability and superior security

Perfect for permanent installations and demanding environments

Resists extreme weather conditions and vandalism attempts

Can be customized with integrated power, HVAC and security system options

Sizes range from 6' x 6' to 24' x 40'

# TURNKEY COMMUNICATION CABINET AND SHELTER SOLUTIONS

## What is included in our turnkey solutions?

The turnkey fiber shelter solution from SBA Edge is a service that includes the deployment, maintenance and protection of your fiber optic equipment, from design, engineering and permitting to final installation and delivery with ongoing monitoring. It takes away the hassle of site acquisition and the complexity of managing multiple vendors, delivering a seamless process and making it an ideal option for fiber and broadband network operators that value efficiency and peace of mind.

## FLEXIBLE AND SCALABLE COMMUNICATION CABINETS AND SHELTERS

- Scalable and Dynamic Capacity:** Efficient scalability to meet rapidly changing operational needs.
- Deployment Ready:** Thousands of tower sites are deployment ready, zoned with commercial utilities established.
- Fiber Connectivity Options:** SBA tower sites typically have multiple fiber transport providers on-net.
- Faster Deployment, Time to Market:** Solutions can be ready for your equipment and fiber in just a few months.
- Seamless Project Management:** We manage every detail, from engineering to procurement to installation, for a hassle-free experience.
- Operational Efficiency:** Save weeks of team hours spent searching for sites and managing vendors.
- Reduced Capex Costs:** Eliminate upfront capital expenditures and site acquisition costs.
- Maintenance Opex Reduction:** SBA sites are maintained throughout the year by dozens of Regional Site Managers located nationwide.
- Financial Stability:** SBA Edge is a subsidiary of SBA Communications, a leading independent owner and operator of wireless communications infrastructure, including towers, rooftops, distributed antenna systems and data centers. With more than 30 years of experience and expertise, SBA is a publicly traded company on NASDAQ (Symbol SBAC) and is part of the S&P 500.
