

MIDCO
BUSINESS®

Hi! We're Midco.

Let's get to know each other.

Centered on Connection

We hit the ground running in 1931 – and haven't stopped since. We give our all to our customers, providing more than 450,000 homes and businesses across the Midwest with the vital and innovative services they need to live, work and play.

Committed to Customers

Whatever you need, we're here to deliver. From local support to secure private networks, we work with you to deliver the wholesale solutions you need.

- 17,000+ Fiber Network Miles
- 118,000 Fiber On/Near-Net Buildings
- 345,000 Coax On/Near-Net Buildings
- 180+ Tower Structures in Footprint
- Up to 99.999% Guaranteed Core Network Reliability
- 24/7/365 Monitoring and Support

Dedicated to Progress

We're proud to offer the gold standard in **safe, secure data transfer** with our Ethernet solutions for a true, high-capacity network.

Midco® will invest **\$500 million to deliver 10G** over the next decade, helping networks stay ahead of our world's digital progress.

All new builds will be **fiber-to-the-premises** (FTTP), and upgrades to existing systems will be fiber-focused, bringing the network even closer to our customers.

Midco Fiber Network

Go with Midco and have access to our fiber network. We're on the clock 24/7, making sure every mile of our network is getting the job done for you – quickly and securely.

Cell Backhaul

Tap into our reliable connection that delivers what your mobile customers need. We create a connection point between vertical assets or wireless systems and your switching facilities. Plus, we can help you expand macro or small cell coverage using our fiber-optic network.

Wavelength

Got something to send? Our 10/100/400 gigabit wavelength and ethernet service means we can support almost any data transmission you need. Partner with Midco and we'll develop a cost-efficient and customizable network to increase your capacity and create any number of network connections.

Ethernet & Internet

On-net or near-net fiber, flat rate pricing, scalable solutions – what more could you want? How about carrier hotels and points-of-presence across the Midwest? We offer all that alongside our network's advanced architecture and superior support.
