MIDCO
BUSINESS®

Get to know Midco.

Plan your future with a trusted partner.

Centered on Connection

You rely on strong connections, and at Midco®, we've brought people together since 1931. As our customer, you can rely on our advanced and innovative long-haul fiber services to provide exactly what you need to succeed.

Get the Job Done

Diverse connections. Extensive reach. Redundant routes. Customizable solutions. Everything to build your infrastructure is here.

Ethernet & Internet

Our 10/100 gigabit dedicated internet access and MEF 3.0 certified Carrier Ethernet services keep you ahead. We offer on-/near-net fiber, points-of-presence across the Midwest and more.

Wavelength

Our 10/100/400 gigabit wavelength services allow us to support almost any data transmission, increase your capacity and create any number of network connections over vast distances.

Dark Fiber Solutions

Prepare for the future with our dark fiber solutions. Gain unparalleled bandwidth, control and scalability for your private, high-speed network and expansion.

Reliability Is Our Business

When you have customers that depend on you, downtime isn't an option. Midco keeps workdays running smoothly with the region's most reliable owned and operated fiber network.

- Up to 99.999% guaranteed core network reliability
- 24/7/365 monitoring and support
- 17,000+ fiber network miles
- 118,000 fiber on/near-net buildings
- 345,000 coax on/near-net buildings
- 180+ tower structures in footprint
